
PRODUCT INFORMATION

Matt varnish 1360

For supplementary coating of offset inks, if matt effects should be achieved. In aid of the velvety matt effect, sliding properties and rub resistance of dried prints are slightly lower.

PROPERTIES

- Increase of the matt effect
- Fast drying
- Fast absorption
- Suitable for wet in wet as well as for wet in dry
- Can be applied on full surface (without water) or for spot varnishing

Normal drying time; by adding 2 % dryer 452 or 3 % Eppo Drier 2001 for spot varnishing with water, drying can be accelerated.

APPLICATION

Can be printed on all offset inks. Pile height and powder application must be in relation to the coating film thickness and the printing substrate.

PRINTING ADDITIVES

Drier	452
Eppo Drier	2001
Thinner	455
Printing gel	348
